

R-17

Wash box cleaner and sanitary cleaner

Item no. 837 117 Canister 10 l

Item no. 837 117

PRODUCT DESCRIPTION:

R-17 is an acidic, highly effective tile cleaner and sanitary cleaner. For all acid-resistant tiles and stainless steel surfaces. Free from hydrochloric acid and other volatile acids, fast-acting, highly dilutable and biodegradable.

APPLICATION AREAS:

Car washes, truck and bus cleaning depots, railway stations, freight forwarders, machine building companies, swimming pools, production plants, toilets and sanitary facilities, urinal basins etc.

Not suitable on: limestone, marble, granite and Solnhofen slabs

APPLICATION:

Use pure or dilute with water up to 1:10 in case of low levels of soiling (depending on the degree of soiling). Apply to the surface to be cleaned and treat with a brush or sponge. Low exposure time thanks to the high-quality ingredients. Rinse well with high-pressure cleaner or powerful jet of water.

Trial order required! pH value: highly acidic.
