

UNI 400

Multi-spray

Item no. 816 400 Aerosol can 400 ml

Item no. 816 400 Item no. 816 011

PRODUCT DESCRIPTION:

UNI 400 is a multi-spray with outstanding properties, providing quick loosening of corroded screw connections, bolts and machine parts. It also provides temporary corrosion protection for processed parts, forms, etc.

APPLICATION AREA:

UNI 400 infiltrates and drives out moisture and water, making it suitable for use on wet parts or machines. It is excellently suited to degreasing preserved profile pipes. It loosens stubborn soiling but does not attack paint. It has good powers of penetration and can loosen seized up parts and is silicone-free.

BENEFITS:

- loosens rust quickly
- simplifies disassembly
- eliminates squeaking noises
- infiltrates and drives out moisture and water
- binds acids on metal surfaces
- Temperature range from -30°C to +180°C
- Good powers of penetration for loosening seized up parts
- loosens stubborn soiling
- does not attack paint

PROPERTIES:

Kinematic viscosity at 40°C: 1.8 mm²/s

Density at 20°C: approx. 0.815 g/ml
